# St. Jude's Walk

By: Fatumata Jalloh

On November 22, 2014 was The St Jude's Walk. This walk was to help raise funds and support the mission of the St Jude's Children's Research Hospital. People in different communities all over the country walked in support of the kids. We were stationed on the Brooklyn Bridge along with many more volunteers in New York.

We spent the morning holding inspirational signs for the walkers such as "Hope" or "Yea St Jude". It was extremely cold and we started singing:

"We're walking on a bridge

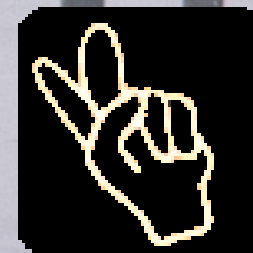

It feels like a fridge

It's getting cold

Your feeling bold

it never gets old!"

We chanted and cheered until about twelve and we headed home. It was amazing how many people showed up in freezing weather to support the kids and it felt even better as Key Clubbers to be a part of it.

# Jingle Bell 5K Run/Walk

By: Sean Santiago

On December 6 of 2014, 5,057 racers completed the tiring distance of four miles in the Jingle Bell Run. Meant to provoke a stronger awareness about the prevalent arthritis conditions, 1,908 men and 3,149 women sprinted in Riverside Park in the hope of finding a cure that can end their family member's suffering. This event was made possible through the help of the students at the High School for Math, Science, and Engineering, Saint Mary's School, and the voluntary participation from the community.

The students were preparing tables with cups of water for the runners in the early morning. The scholars brought tables and bottles of waters in boxes to sections of the race. They then proceeded to pour each bottle of water to different cups so that 5,000 runners were capable of hydrating themselves during their run.

Children, teenagers, adults, and families as a whole were running together to spark awareness. The students later began cheering and were very supportive of the racers. Handing out waters and dancing enthusiastically, students began playing holiday music as well. The music was essential to portraying a holiday theme and a joyful tune that may foreshadow the happiness of a cure for Arthritis. Key clubbers were out in the rain along with these struggling runners in the hope of finding a cure because key clubbers know what is right and do whatever they can to make life for the community better!

## Upcoming Events

January Divisional - November 22nd

Meetings -

January 6th , 13th, and the 20th

LTC - March 27th—29th

KEY CLUB SUPPORTS

**ELIMINATE**

maternal/neonatal tetanus

 **Kiwaniis** |  **unicef**
